MEKDES HAFTU

web devloper

My name is Mekdes Haftu, and I am currently a fourth-year student studying Software Engineering at Adama Science and Technology University. I have obtained certifications from Solo Learning in HTML, CSS, and graphics design. During my studies, I have had the opportunity to work on various school projects, including the development of a mobile application and a digital resource website. These experiences have allowed me to apply my knowledge and skills in a practical setting, further enhancing my understanding of software development and design.

EDUCATION

2019-present
Adama Science and Technology University

- studing Bachelor Degree of software engineering

2020-present
St. Mary's University

- studying managment
